Difficulties encountered

Our challenges

Open Innovation : link referents companies with start-ups

A kick to multi-sectorality as a source of new business opportunities and competitive advantages.

Identify and fostering drive force projects via cooperation with CCI agents of the value chain, talent attraction, financing

Potential for learning or transfer

BEAZ is a good example of agent that has the capacity of binding all the entrepreneurship and innovation ecosystem in Biscay by way of its contribution to outlining and consolidating

more and higher quality innovation projects.

Likewise, BEAZ has a linking and dynamizing role for different stakeholders: universities, technological centers, public institutions, public innovation agencies, sectorial associations, clusters...of the entrepreneurship and innovation ecosystem

BEAZ is member of CCI Sector Group of the EEN network that helps businesses innovate and grow on an international scale.

And all this, bearing in mind BEAZ mission which is to foster growth of the economic activity and the generation of quality employment in Biscay through the promotion of new business innovative activities and through the improvement of the competitiveness of the existing companies in Biscay by way of giving support to their growing, innovation and internationalization challenges.
